

Detergent for condensate drain air conditioners 1 L

- cod. HCC100017

DESCRIPTION:

Acid detergent free from chlorinated derivatives, which, in a single action, cleanses and eliminates the residues present in the tanks and in the condensate drain pipes of air conditioners.

It allows to optimize the efficiency of condensate discharges.

Thanks to its special formula, it is able to thoroughly clean melting and liquefying the deposits present in the plant that could obstruct the drain.

TECHNICAL SPECIFICATIONS:

- Appearance: liquid
- Colour: clear
- pH: 1
- Flash point: > 100 °C
- Viscosity: > 5 CST
- Relative density: 1,000 ~ 1,150

USES:

It can be used on both fixed air conditioning units and mobile units.

It completely removes the slime, algae, mold, fungi and scale in the plant.

In the case of treatments for pipes, tanks or drains, enter the product into the pipes to be treated, leave to act, rinse and where necessary dry with compressed air intake.

After rinsing, if you need to have dry coils, treat with compressed air.

It is advisable to use the product in percentages ranging from 3 to 20% depending on the quantity of dirt to be removed.

SAFETY INFORMATION:

Read and observe the safety warnings on the container's label.

For information regarding handling, transportation, etc., refer to the Safety Data Sheet (SDS) for the product in question.
