

Sanitizing tablets for condensate water

- cod. HCC100056

DESCRIPTION

To be used for the prevention of the phenomena of putrefaction of condensate water. They contain sanitizers that can inhibit the proliferation of bacteria, mucilage and silt that risk blocking condensate discharges into air conditioning systems. Available in sets of 6 pads to be used in a single solution.

USE

Arrange the package facing down, with the single pad in the direction of the drain pipe.
