

Condensate drain pipe Ø 20 single gray cladding - Sleeves Ø 18/20

- cod. SCD3E0011

DESCRIPTION

The corrugated condensate discharge pipe Ø20 is made in anti-UVA grey polyethylene with single coating. Packaged in 50 m rolls and every 52 cm there are Ø18/20 m/f fitting sleeves; this helps to cut the pipe to length to avoid wasting material.

The materials used, along with the new corrugated shape, guarantee high flexibility and mechanical resistance, making the pipe ideal for duct applications.

Buried installation not recommended.
