## DESCRIPTION

"Air Clean UV 60 m<sup>2</sup>" is a domestic air purifier with six filtration stages.

It is equipped with a display that allows you to view the air quality through four different colours.

Thanks to the six filtration stages, the air purification is professional and efficient, it is possible to capture: pm2.5, dust, bacteria, pollen, benzene, formaldehyde and harmful gases such as ammonia.

Available with control panel equipped with touch buttons that allow you to choose between 4 different operating speeds.

It is also characterised by its silence, putting it in "silent" mode makes the sound almost imperceptible during its operation.

It is also equipped with a sensor that analyses the air quality.
